

EXPERIENCE HADRIAN'S VILLA

VIRTUAL REALITY TOUR

Experience Hadrian's Villa transports you into an immersive virtual journey through the Antinoeion, a long-lost temple dedicated to Antinous, a Greek youth who was deified after his tragic drowning in the Nile. Explore this remarkable monument as it reveals the powerful personal and political story behind the significance of this UNESCO World heritage site. Richly reconstructed architecture showcases Hadrian's fascination with both Egyptian and Greek traditions, blending diverse classical styles into a visually stunning environment that invites visitors to discover the artistry, symbolism, and cultural influence of this extraordinary ancient site.

This VR application has been designed with the Unity game engine for use with Mechdyne's getReal 3D platform for Powerwall, CAVE and HMD systems. For questions about pricing, content, or technical considerations, please contact Mechdyne or IDIA Lab.
