

NO COST CONSULTATION OFFER

WHAT CAN YOU EXPECT?

We are a technology company, but we immerse ourselves in the business issues of our clients first. So, we can talk about technology for centers if that is what you need. But, we'll also talk about what you want to tackle. If you aren't sure what we can talk about, here are some ideas. We can:

- Discuss your situation to help crystalize your goals.
- Talk about what might affect investments you want to make.
- Let's consider how to jumpstart a new, post-covid perception of your briefing program by key stakeholders.
- Learn/discuss options for expanding needs analysis within your organization.
- Update or establish new perceived values to align with stakeholders in the coming post-pandemic environment.

OUR CONSULTATION LEAD:

Rob Rouland - famous presenter at ABPM Spring 2020 on the topic: **Getting the right butts in seats. Promoting and qualifying attendance to your briefing center.**

WHAT'S THE CATCH? NONE!

We need to help each other in these strange times.

We have a conversation. If you want to continue that conversation, great. If you want to take any insights elsewhere, that is fine too.
